# BHAGAVAD GITA

A beautiful teaching from exceptional teachers Neema & Surya who will visit us from India to share their extensive knowledge in Vedanta.

For centuries the **Bhagavad Gita** has remained the single most influential spiritual text shaping Indian thought and life. It is a dialogue between Lord Krishna and the prince-warrior Arjuna in the middle of the battle field, when Arjuna was confused about his course of action.

The Gita unfolds the entire vision of Vedanta in a profound manner. Lord Krishna reveals to us through Arjuna the ultimate reality as well as the means to prepare oneself for the knowledge through various practices & shifts in attitude. The predicament of Arjuna is faced by each of us in various walks of our lives and hence, this teaching can give us insight into how to live our life more objectively and effectively.

**Neema Majmudar** and **Surya Tahora** have studied with Swami Dayananda Saraswati, renowned scholar of Vedanta. Both have gone through intensive courses of Vedanta studying texts such as the Upanishads, Bhagavad Gita and many scriptures in great depth with the commentaries of Sankara, and the Panini system of Sanskrit grammar. They have been teaching Vedanta in India and abroad for several years. You can read more about their work on their website: <http://www.discovervedanta.com> Neema and Surya teach in a captivating way, with story telling, traditional chanting and guided meditations.
